

For every 300 items you think are in your stockroom, at least one is missing.

Explain that to the customer who wants to buy it.

Blame human error. Attribute it to employee theft. You might even tell your customer, "It's on order."

But the fact is, you don't know where that missing product is. Because if you're still doing inventory by hand, there's a one-in-300 chance that you've miscounted, mislabeled, or misplaced something. And just how many items do you stock?

But out-of-stock items and angry customers aren't your only problem. If you're manually counting inventory every year, every quarter or even every month, it's nearly impossible to grasp what those numbers might be telling you – and more importantly, what you should do about them.

The solution? *Barcode Anything* – the all-in-one inventory system that lets you easily, accurately and instantly track every single item in your business... *guaranteed.*

Get complete control over your inventory.

With *Barcode Anything*, your Windows® computer can help you count and track your stock with amazing accuracy – less than one error in *three million!*

Just use *Barcode Anything's* powerful software to easily create custom barcode labels for everything you carry – labels that

hold all the information you want: price, description, manufacturer, even custom graphics!

Then apply the labels to your stock and you're in business. Simply pass the *Barcode Anything* scanning wand over the barcode and it's tracked instantly.

Add graphics, logos, and specific information to your labels with drag-and-drop ease.

Whenever a product is bought or sold, shipped or received, or stored anywhere, *Barcode Anything* allows the user to keep an accurate count... *automatically.*

See the whole picture with up-to-the-instant inventory reports.

Now any business can take advantage of the same technology supermarkets use to manage thousands of items every day.

Stop making excuses and start making profits with Barcode Anything.

Use *Barcode Anything* to print custom barcode labels to track anything in your inventory – no matter how big or small.

Use Barcode Anything to print custom barcode labels to track anything in your inventory – no matter how big or small.

Use *Barcode Anything* to track every sale or return. Merchandise received and shipped. Even items transferred between your business locations. It tracks every transaction and does the tallying for you, then sorts the data into easy-to-read reports. And every report is updated automatically every time a label is scanned.

So at any given moment, you can see whether everything's accounted for.

Barcode Anything isn't just for inventory! Use it to track time assets, manage paperwork, or control rental check-outs and memberships.

Get the precise information you need to make smart business decisions.

Not just what you need to order, but what items sell best on Saturdays. Which items deserve your most visible store space. Or what's just taking up space.

You can even transfer your *Barcode Anything* data to other software and simplify every aspect of your business. Send figures to your spreadsheet or accounting software to help with P&L's. Plot sales trends with presentation software. Get a truly accurate total of your assets at any time.

Create custom solutions to any problem.

You can even make reordering painless! Whenever stock-on-hand for any item falls below the level you set, use *Barcode Anything* to create an instant reorder list. Generate custom order forms made out to your vendor – complete with products needed, item numbers and quantities – *all automatically!* You'll wonder how you ever managed without *Barcode Anything*.

Use Barcode Anything alone or with your other software to create reports that really communicate.
